

The Blend That "Breathes"

"RC" ESSENTIAL OIL BLEND 

NOW ON SALE - 10% Off
October 16th – November 15th, 2007

”RC” OIL BLEND

RC Blend stands for “**Respiratory Congestion**” and is formulated with three organic sources of Eucalyptus (*Globulus, Radiata and Citroedora*) that bring relief from colds, bronchitis, sore throats, sinusitis, coughs and respiratory congestion. **RC** helps decongest sinus passages, combat lung infections, and relieve allergy symptoms especially through the diffuser method. **RC** has also been reported to help dissolve bone spurs. *

* -- *People’s Desk Reference 2000 – Essential Science Publishing*

Therapeutically - Dr. Daniel Péroël, M.D., considered by many to be the world authority on Aromatherapy, suggests that combining Therapeutic Grade A Essential Oils of the *Myrtaceae* family with the oils of the *Conifer* family is a great marriage that results in Good respiratory protection; Maintenance of fluidity of body secretions; Genuine antiviral action; and as a Aid to the effective penetration of other aromatic molecules into the body.

Dr. Péroël specifically suggests combining Eucalyptus Radiata, Balsam Fir or Pine, Eucalyptus Citriodora, Eucalyptus Dives, and Melaleuca Alternifolia. Any or all of these creates a powerful synergistic effect on the body. - *“Natural Home Health Care Using Essential Oils” – Daniel Péroël, M.D.*

NOTE: RC Blend contains three oils from the Myrtaceae family (**Eucalyptus Radiata, Eucalyptus Citriodora, Myrtle**) and two oils from the Conifer family (**Tsuga and Pine**), as well as therapeutic grade Spruce, Marjoram, Lavender, Cypress and Peppermint

Energetically – RC Blend has a measurable electrical frequency of **75 MHz**. Since colds and flu can begin when the body’s frequency drops between 57 and 60 MHz, **RC** is already at work to elevate breath frequency in the body to resist further congestion. The Eucalyptus oils may help release deep grief in the mental, etheric or physical bodies. Balance and greater assimilation occurs when grief is released and the body is then more attuned to its own natural rhythms. *“Vibrational Healing with Essential Oils” – Deborah Eidson*

Emotionally – RC Blend helps you overcome the feeling of being depleted. The way out of this negative emotion is to become rejuvenated with RC and the affirmation or **“I take care of myself.”** Repeat this affirmation regularly when you experience loss of strength and energy, while applying RC Blend to the *Lymphatic Congestion* alarm point. This is located in the lower lateral area below the breast toward the armpit. If you feel depleted, this area will likely feel painful when pushed upon. *“Releasing Emotional Patterns with Essential Oils 2007” – Dr. Carolyn Mein*

“My great cough recipe is to use the Young Living oil blends, **RC** and **Raven**. Rub onto chest and back area of lungs. Put head into your shirt like a tent and breathe the oils. It will promptly open up your bronchial tract and help to stop coughs. I also take 1/4 cup of honey and add at least 30 drops of the essential oil blend **Thieves** to honey and take internally 1 tsp. to soothe throat. Children love this. Taste it as you blend to get a mix you like. If it burns too much, add more honey.” - *Beverly H., Massage Therapist **

“I had to go to the dentist to get a root canal. One of the things I like least about a trip to the dentist is the numbing. I heard somewhere that the essential oil blend **“RC”** helps to get rid of the numbing sensation. So, after my trip to the dentist and as soon as I entered the house, I grabbed my bottle of **RC** and started rubbing it on my numb cheek. In a very short time, maybe 60 seconds, I felt the tingling in my cheek and within about 15 minutes all the numbness was gone. I was amazed and very relieved! I also used this oil blend to help fight any infections that might occur and alleviate pain. So far so good! No more pain and my gums feel fine.” - *Laina C., USA **
